**SMOOTH
WRITING**

Since its inception in 1979, prayas pen and plastic industries is a leading manufacturer and exporter of fine writing instruments.

Prayas pen and plastic industries is known for its quality and commitment over the years of hard work, learnings and dedication.

One of the reason that we excel in this area is, we incorporated backward integration. Around 80% of the processing and finishing of the raw materials is done by us, which enabled us to have a better check on our quality and consistency of the product.

Over the years we have a working space of 45000 sq. ft. and further expanding up to 35000 sq. ft. We have our working units in Vasai, Daman, Surat, Goregaon, Chennai and Borivali.

We specialize in manufacturing of metal pens and have a wide range in the metal section. We see to it that the raw material used goes through the inspection of a trained and special QC team. To add on to our specialties, we are flexible in designing according to our clientele requirement.

We our constant effort of our workforce we are able to export in more than 30 countries in the world.

We have had clients from the day of the foundation of the company and still continue to work with each other, thus giving the assurance of our services.

In the domestic market we are recognized under the brand name RIO for last 26 years. We also have a team focusing on penetrating the rural areas of the country to enable the basics of education to each one possible.

With team work and constant research on quality we are able to offer a wide range of products. We aim to grow with our people not only for the development of their life but also reach out the society with our services in a greater way.
